WE ARE GOING VIRTUAL!

Navigating a Sustainable Future with Agility and Resilience

The world today is enduring enormous economic and social hardships, triggered by an unprecedented global health crisis. If we are to recover and reroute towards pathways of more sustainable growth, business as the global growth engine must be renewed and reformed. As advisors to business armed with financial and strategic expertise, accountants are the frontliners who should lead business innovation and transformation for a better tomorrow.

The MIA International Accountants Conference 2021 aims to equip accountants with the requisite knowledge and tools to support and drive sustainability holistically, through business continuity and sustainability, climate solutions and digital empowerment. Over three days, accountants will be enlightened on how the profession can contribute to building a brighter and more sustainable future. Get inspired by the world's foremost business leaders and experts to reinvent yourselves as agile, resilient and sought-after agents of transformation.
